Introduction. During the 2006 Carsky Symposium, a roomful of microbiologists was asked how many had had a class or a unit of a class focused on biofilms during their training. Not one hand was raised. Then they were asked how many had had as much as one lecture on biofilms and the response was less than one fifth of.

In addition to observational work done in class, instructors may wish to create homework assignments and projects to be done outside class for individual evaluative purposes. The main problem presented by assigning such observation tasks is that, if the instructor has not seen the movement event, it is often very difficult to.

The copyrighted 2016, released 2017 American Red Cross Lifeguarding Instructor's Manual does not reference which page in the participants manual (American Red Cross Lifeguarding Manual) the material the instructor is lecturing about. It only references chapter numbers. In the waterfront lifeguard training section it.
