quality, effectiveness, and efficiency of cancer care so that patients can live better lives.

Ludwig is an international network of scientists, all pursuing innovative ways to prevent and control cancer.

Cancer begins in your cells, which are the building blocks of your body. Normally, your body forms new cells as you need them, replacing old cells that die. Sometimes this process goes wrong. New cells grow even when you don't need them, and old cells don't die when they should. These extra cells can form a mass.

News on cancer research & diagnostics, liquid biopsy, and cancer risk testing from GenomeWeb.

Cancer Care Ontario is the Ontario government's principal cancer advisor. We provide evidence-based knowledge and tools to help prevent cancer and deliver high-quality care. Read more about us. FR. Pathway Maps. These flowcharts give a high-level overview of the care an Ontario cancer patient should receive.

Understanding cancer, preventing it -- and ending it. Watch these TED Talks about the latest science and technology in the fight against cancer.
